

Kristin is the director of Family Preservation & Support. She loves spending time outdoors in all of Wisconsin's seasons and sipping hot tea with a big blanket while reading a book or listening to a good podcast.

A Milwaukee native, Kristin is passionate about the Healthy Start program because addressing health disparities and infant mortality makes this community stronger. Kristin has been grateful to be part of this dynamic, energetic team that finds creative solutions to bring out family strengths.

Sheena Sheena is the Healthy Start Manager. She enjoys word games, watching Grey's Anatomy and eating dark chocolate.

Sheena is passionate about serving others. Being part of the Healthy Start Team gives her the opportunity to serve others by working to address the disparities that exist within her own community.

Meagan is a Healthy Start Supervisor. She enjoys riding her bike, true crime podcasts and eating spicy food.

Meagan is passionate about supervising the Healthy Start team, as she is able to support all of the amazing team members who work hard every day to best help families. Meagan loves hearing from the team how their clients have demonstrated resilience and have worked towards reaching their individual goals.

Nyree is a maternal child health navigator lead with Healthy Start. She loves fine arts and enjoys decorating.

Nyree enjoys being part of the Milwaukee County Healthy Start program. She loves connecting with families, providing support, and assisting them in making connections to build a foundation for self-sufficiency, and promoting improvement of health and healthy birth outcomes.

Tina is a maternal child health navigator with Healthy Start. She enjoys positive quotes, colorful pens and the color purple.

Tina is passionate about working as a Maternal Child Health Navigator with Healthy Start because she loves spreading positivity and encouraging people, especially those who may not have been encouraged before. She also really enjoys building relationships with clients and connecting them with the necessary resources; these two things allow clients to grow and flourish.

Melissa is a maternal child health navigator with Healthy Start. She enjoys traveling, crafting, fishing and is a DIYer.

Melissa enjoys working for Healthy Start because she enjoys helping others. It also gives her a chance to meet women from all ethnic backgrounds and to learn about their culture and traditions. She also likes to share her life experiences with her clients and give them the tools and resources that helped her in her own journey.

Tiffany is a maternal child health navigator with Healthy Start. She likes the color green, enjoys the Milky Way candy bar and the scent of lavender.

Tiffany is passionate about her work with the Healthy Start Program because of her desire to help others, an appreciation for the opportunities to help provide and be a support to families and chance to pass on lessons learned through her own experiences.

Jared is an operations data specialist with Healthy Start. He enjoys spending time outside with his dog Rose and the color light blue.

Jared is passionate about Healthy Start because it allows him to use his skills with data to make a positive impact on families who may need it. He also enjoys being able to help ensure that children have the best structures in place to live a healthy and successful life.

Sarah is a mental health consultant with Healthy Start. One of Sarah's favorite plants is the lipstick vine. She enjoys walking her dog and cooking something new for dinner.

Sarah loves working in the mental health field, and especially being able to provide support to moms in all of the ages and stages of their lives.

Flenard is a community outreach specialist for fathers with Healthy Start. He enjoys basketball, football and fishing. He also enjoys working in his yard.

Flenard really enjoys seeing the fathers he works with become the specialist and the teacher.
