

Kristin is the director of Family Preservation & Support. She loves spending time outdoors in all of Wisconsin's seasons and sipping hot tea with a big blanket while reading a book or listening to a good podcast.

A Milwaukee native, Kristin is passionate about the Healthy Start program because addressing health disparities and infant mortality makes this community stronger. Kristin has been grateful to be part of this dynamic, energetic team that finds creative solutions to bring out family strengths.

Sheena is the family preservation & support manager of Healthy Start. She enjoys word games, watching Grey's Anatomy and eating dark chocolate.

Sheena is passionate about serving others. Being part of the Healthy Start Team gives her the opportunity to serve others by working to address the disparities that exist within her own community.

Hannah is the prevention supervisor for Healthy Start. She loves traveling with her family and admits a slight addiction to Target. She has a son who is adventurous and has opened her eyes to so much more in her life.

Hannah is excited to work on building significant relationships within the community that raised her. She looks forward to supporting more individuals and children, so they can have the opportunity for better outcomes in life.

Keesh is a maternal child health navigator with Healthy Start. She likes to sing and play basketball. She enjoys cooking, fishing and watching documentaries.

Keesh is passionate about helping others. She enjoys meeting new people, building positive relationships and having the opportunity to make a difference in someone's life.

Jocelyn is a maternal child health navigator with Healthy Start. She enjoys watching mystery and crime TV shows. Her favorite show is Criminal Minds. She enjoys exploring new places and foods. Her favorite colors are black and purple, and she loves boba tea and iced coffee. Jocelyn is excited

about creating new relationships and bonds with clients. She also likes helping them connect with resources, allowing them to express their thoughts and experiences and helping to create possibilities for positive change.

Lia is a maternal child health navigator with Healthy Start. She likes to play tennis, enjoys her iced coffee ALL of the time, and spending time with her dog Auggie.

Lia is passionate about serving others, building meaningful connections with clients and having the opportunity to advocate and empower families with essential resources and guidance to prosper in the community.

Mackenzie is a maternal child health navigator for Healthy Start. She enjoys reading thriller and mystery books, making jewelry and finding new sushi and coffee houses to try.

Mackenzie has a background in gender and women's studies. She is grateful to work in a role that understands that health goes deeper than the physical aspect, and that the resources you are able to access play a huge role in your health and well-being.

Keisha is the maternal health therapist for Healthy Start. She loves creating memories with her family, and she is very family oriented. She enjoys staying up and watching late-night movies with her husband. Keisha is passionate about working for Healthy Start because she is able to support wonderful and strong

women. She enjoys advocating for mental wellness and prioritizing moms' mental health, which ultimately comes back full circle for families.

David is the supervisor for the Direct Assistance to Dads (DAD) Project and Healthy Start Fatherhood services. David enjoys spending time with his family and the challenges that come with parenting three daughters.

David's passion comes from his own experience as a father. He understands the value of active engagement and intentional involvement to both mother and child. He is excited to make an impact in the lives of fathers as they contribute to their family.

Flenard is the fatherhood advocate for Healthy Start. He enjoys basketball, football and fishing. He also enjoys working in his yard.

Flenard really enjoys seeing the fathers he works with become the specialists and the teachers for their children and families.

Alana is the operations data specialist for Healthy Start. She loves taking care of house plants, painting, and enjoying a good iced coffee.

Alana is very passionate about helping people through her role in research, data science and education. She enjoys being able to create environments where children, families and larger communities are able to prosper and have happier, more successful futures.
